

## **25.02.2013 | NEW USER-FRIENDLY INTERFACE OF TRACK&TRACE PROGRAMME IS NOW READY-TO-USE ON OUR WEBSITE**

*New user-friendly interface of cargo tracking programme Track&Trace is now available online on [www.airbridgecargo.com](http://www.airbridgecargo.com).*

**Monitoring your cargo has never been easier**

HKG — SVO — FRA — AMS

Check the new cargo tracking system on our website: [www.airbridgecargo.com](http://www.airbridgecargo.com)

The graphic illustrates a cargo tracking route. It starts with a blue arrow pointing right containing the text 'Monitoring your cargo has never been easier'. This is followed by a sequence of four circular nodes connected by dashed lines: 'HKG', 'SVO', 'FRA', and 'AMS'. Below the 'HKG' and 'SVO' nodes are airplane icons, and below the 'FRA' and 'AMS' nodes is a truck icon. The AirBridgeCargo logo is positioned above the 'SVO' node. The entire graphic is set against a light blue background with a darker blue bar at the bottom containing the website URL.

The graphic elements in the new interface make it user-friendly and easy to use, and will help customers to manage their logistics more effectively. In order to find out the location of the cargo one will have to specify the airway bill number on the airlines website.

*For information*

Track&Trace is a programme which allows tracking your cargo online and controlling the cargo route and the cargo movement schedule.
