

15.09.2008 | Familiarization Trip to Russia for ABC agents

ABC has organized and sponsored a familiarization trip to Russia for the airline's key agents from Hong Kong, Shanghai, and Beijing, between September 1st and September 7th. During the trip our business partners from China were given the opportunity to combine business and leisure in one visit, which was for some of them a first time in Russia.

Field trips to Sheremet'yevo airport in Moscow and to Pulkovo airport in St. Petersburg allowed visitors to gain first-hand impression on facilities and cargo handling flows at ABC major gateways in Russia, to eye-witness security control, customs, cargo acceptance and delivery procedures.

ABC guests were also briefed on particulars of the Russian air freight market, ABC development in the coming year, and had their questions answered during a business discussion hosted by senior managers from ABC and the Volga-Dnepr Group's Management Company. Accompanied everywhere by ABC managers from China and head office, visitors could have face-to-face discussions business discussions as they were touring the two Russian capitals.
